**Toronto, ON – October 13, 2005** – Enablez Inc., makers of ResortSuite and one of the hospitality industry's fastest growing technology companies, will be awarded the 2005 Supplier of the Year at the 17<sup>th</sup> Annual Pinnacle Awards presented by *Hotelier* magazine. The award will be presented at the hospitality industry's only national recognition program. For 17 years, *Hotelier* magazine has been presenting awards to individuals and companies that have made outstanding contributions to the hospitality industry. Each year, *Hotelier* solicits nominations from the industry, and after much scrutiny and deliberation, a judging panel chosen from the magazine's Editorial Advisory Board selects the winners.

The criteria used to determine the winners include, the impact the company or individual has made on the industry, significant innovations and accomplishments achieved over the course of the last year, and how the company has contributed to the community at large. Specific measures include, involvement in professional hospitality organizations, increased sales and profits over the course of the year, expanded career opportunities, the introduction of new products/techniques, and lasting contributions and recognition of outstanding service to the hospitality industry. The company's social responsibility is also considered.

"We are honored to receive this award because it recognizes our commitment to the hospitality industry that goes far beyond our software solutions," said Frank Pitsikalis, President of Enablez. "We will continue to actively participate in the hospitality community, deliver integrated guest-centric solutions, and provide world class support to our customers."
