

The Lodge at Woodloch Selects ResortSuite to Manage its Operations

Toronto, ON – July 11, 2006 – The Lodge at Woodloch, the first new luxury destination spa to open in over a decade, has selected ResortSuite to manage its 40,000 square foot spa, accommodations, and amenities. The Lodge at Woodloch was founded by JGL Spa Consultants John and Ginny Lopis, award winners of ISPA's Visionary Award, one of the highest honors in the industry.

ResortSuite will manage all areas of the destination spa, including spa bookings, room accommodations, memberships, dining, fitness classes, and activities. By selecting ResortSuite's completely integrated solution, The Lodge at Woodloch will actualize a single definition of customers throughout its operation, guaranteeing a high level of service to every guest across all touch points. Staff, inventory, and gift certificates will also be recognized universally across the property, eliminating IT limitations, improving operational efficiencies, and enhancing guest experiences. The execution of targeted, integrated marketing campaigns and loyalty programs will also provide them with continued guest interaction in-between visits.

"We selected ResortSuite because its guest-first approach to managing resort operations mirrors our philosophy at Woodloch", stated John Lopis, founder of The Lodge at Woodloch. "ResortSuite will allow us to provide guests a single view of their stay at Woodloch, and more importantly, allow us to establish and nurture ongoing, personal relationship with every guest."

"We are excited to have The Lodge at Woodloch join our list of high profile destination resort properties," said Frank Pitsikalis, President of Enablez. "Woodloch's desire to provide a consistent, guest-first experience reflects our integrated vision for the resort industry."
