RESORTSUITE SPA ACHIEVES DATAWORKS INTEGRATION

TORONTO, ON – ResortSuite, a leading provider of integrated guest-centric hospitality management solutions, is pleased to announce that ResortSuite SPA 5.0 has been certified with DataWorks' NeXT™ Advanced Retail Management System.

The interface allows inventory and merchandise information to flow seamlessly from NeXT into ResortSuite SPA and all sales information to flow back into NeXT from ResortSuite SPA. NeXT allows multi-faceted operations to create an integrated view of their inventory and ordering across the organization. ResortSuite clients using NeXT will be able to continue to enhance inventory management functionality whether they choose to use ResortSuite's comprehensive built-in inventory system or DataWorks' NeXT inventory system.

The seamless integration is built on ResortSuite's Web Service Bus architecture, a modern, extensible, secure, and robust platform for supporting interoperability between the ResortSuite software solution and other enterprise applications like DataWorks' NeXT.

"We have delivered a two way interface with the DataWorks NeXT solution and see tremendous value for properties that need to integrate sales and inventory data from different systems across the organization." said Frank Pitsikalis, Founder and CEO of ResortSuite.

About DataWorks:

DataWorks has excelled in helping customers streamline their inventory operations since 1986. Clients utilize DataWorks' software NeXT™ to sweep through the tough day-to-day chores of purchase orders, pricing, bar coding and theft prevention. Clients with inventory spread over a large property, such as a theme park or vacation resort, use DataWorks' warehousing, distribution, transfer and allocation features to track and trace each item's present location and history. DataWorks' enterprise customers are able to scale multiple language and currency barriers and cross geographic and language borders, achieving economies of scale with centralized purchasing and drop shipments. Even issues with cost and retail pricing, associated with tariffs and unique taxation issues, are handled for international clients. For more information about DataWorks, Inc. and NeXT™, visit their website at www.dataworksinc.com or call 239-444-1030, extension 574.

About ResortSuite:

ResortSuite is a sophisticated and fully integrated customer-centric hospitality management software solution developed specifically for hotels and resorts, boutique hotels, spas, clubs and leisure operations, and their multi-faceted business areas. The ResortSuite solution is built on an Oracle database and includes the following specialized modules: **PMS, SPA, CATERING, F&B, GOLF, SKI, CLUB, RETAIL, CONCIERGE, and WEB.** All modules oversee the areas of an operation in parallel but share common core capabilities, creating a customer-centric, integrated hospitality management solution. ResortSuite prides itself on delivering exceptional support and forging strong business relationships with its clients and partners and was awarded *Hotelier Magazine's* 2005 Supplier of the Year Award. For more information on the ResortSuite solution, please visit www.resortsuite.com.
