PRESS CONFERENCE ANNOUNCEMENT

HITEC 2009

TORONTO, ON – ResortSuite, announced today that Frank Pitsikalis, Founder and CEO, will lead a press conference on Wednesday, June 24, at 9:30 am PT, in Room 211A to discuss the launch of **RS Ambassador**, the lingua franca of hospitality software communications. Mr. Pitsikalis will disclose how **RS Ambassador** was designed from the ground up to provide rich, streamlined communications between ResortSuite and other industry-leading hospitality software systems. He will also talk about **RS Ambassador's** ability to provide ultimate connectivity across an entire property.

The press conference will be held at HITEC 2009 at the Anaheim Convention Center, in Anaheim CA. A continental breakfast for attending media will be served.

ResortSuite has been recognized in the industry for its highly integrated software applications and unique approach to guest-focused information management. Their clients include some of the industry's top operations; including, The Lodge of Four Seasons, Washington Athletic Club, Fontainebleau Resorts, Smugglers' Notch Resort and The Windsor Arms Hotel. Partnership affiliations include, HTNG, Comtrol, Passkey, Shift4, and Dataworks, to name a few.

"The biggest challenge in the industry has been the lack of a standard way for line-of-business hospitality applications to interoperate," stated Mr. Pitsikalis. "For the first time, we have opened up our platform to new integration possibilities for multi-vendor, full-service hotel and resorts properties. We are thrilled to introduce **RS Ambassador** at this year's HITEC and to further our position as a leading provider of modern technology management solutions."

Please contact ResortSuite's Anastasia Wowk at 1-866-477-8483, or anastasiaw@resortsuite.com to confirm your attendance.

About ResortSuite:

ResortSuite is a sophisticated and fully integrated guest-centric hospitality management software solution developed specifically for hotels and resorts, boutique hotels, spas, clubs and leisure operations, and their multi-faceted business areas. The ResortSuite solution is built on an Oracle database and includes the following specialized modules: **PMS, SPA, CATERING, F&B, GOLF, SKI, CLUB, RETAIL, CONCIERGE, and WEB.** All modules oversee the areas of an operation in parallel but share common core capabilities, creating a customer-centric, integrated hospitality management solution. ResortSuite prides itself on delivering exceptional support and forging strong business relationships with its clients and partners and was awarded *Hotelier Magazine's* 2005 Supplier of the Year Award. For more information on the ResortSuite solution, please visit www.resortsuite.com.
