RESORTSUITE MOVES TO NEW OFFICE

TORONTO, ON – Enablez Inc., developer of ResortSuite and a leading provider of integrated guest-centric hospitality management solutions, is pleased to announce the move of its international headquarters to 171 East Liberty Street. Located in one of Toronto's leading employment areas for technology-advanced businesses, Liberty Village attracts some of Canada's most successful and creative businesses.

"We're excited about our move to Liberty Village for several reasons," stated Frank Pitsikalis, President of Enablez. "Because our client base has increased significantly since the company was founded, our team continues to expand as well; the move marks a milestone in the growth and future of our company. Additionally, the new environment is perfectly suited to inspire creativity, forward-thinking, and team-building – attributes that lead to delivering better solutions and customer service for our clients."

Liberty Village, comprising a 16 block area in south west Toronto, has experienced significant growth since 2005. It is one of the most digitally advanced and fully wired communities in the city, supplied with more optic bandwidth than any other neighborhood in the country. For ResortSuite that translates to connectivity three times faster, reliable technology, quicker processing time, and enhanced customer service.

"I am extremely honored to be a part of this significant move," stated Fauzi Zamir, newly appointed Chief Operating Officer and CFO of Enablez. "The ResortSuite team strives for excellence in their performance every day and our new office is designed to support their efforts. I share this commitment and look forward to working with a team which continues to maintain ResortSuite's leadership role in the industry."

About Enablez Inc.:

Enablez Inc., based in Toronto, Canada, is the developer of ResortSuite, a sophisticated and fully integrated customer-centric hospitality management software solution. ResortSuite was developed specifically for hotels, resorts, clubs, and spas, and their multi-faceted business areas. The ResortSuite solution is built on an Oracle database and includes the following specialized modules: **PMS, SPA, CATERING, F&B, GOLF, SKI, CLUB, RETAIL, CONCIERGE, and WEB**. All modules oversee the areas of an operation in parallel but share common core capabilities, creating a customer-centric, integrated hospitality management solution. Enablez prides itself on delivering exceptional support and forging strong business relationships with its clients and partners and has been awarded *Hotelier Magazine's* 2005 Supplier of the Year Award. For more information on Enablez Inc. and the ResortSuite solution, please visit www.resortsuite.com.
