ResortSuite Offers Hospitality and Leisure Operations Subscription-Based Pricing

Toronto, ON - ResortSuite, a leading provider of integrated, guest-centric hospitality management software solutions, is pleased to introduce subscription-based pricing, an alternative purchasing method that gives hotels, resorts, spas, golf courses, ski resorts and clubs access to the full capabilities of ResortSuite's solutions via a monthly subscription fee.

Developed to satisfy the growing demand for a simpler and more manageable payment option, ResortSuite's new subscription pricing option enables operations to implement any or all ResortSuite modules across their property, and includes software, training, 24/7 support and regular system updates in one manageable monthly fee; typically less than the cost of an additional junior staff resource.

"We are offering ResortSuite on a subscription basis as a response to an overwhelming demand to provide more hospitality and leisure operations the opportunity to prosper from ResortSuite's countless capabilities," stated Frank Pitsikalis, ResortSuite Founder & CEO. "We listened to prospects express that they would have no difficulty getting a monthly subscription fee approved to implement their preferred selection of ResortSuite -- so we delivered. We look forward to helping operations striving to build a competitive advantage by using modern, world-class software capabilities with a cash-conscious approach."
