**ResortSuite Solution Chosen to Manage Hippocrates'
Accommodation and Spa Operations**

Toronto, ON - ResortSuite, a leading provider of integrated, guest-centric hospitality management software solutions has been selected to provide resort designated systems for a preeminent leader in the field of natural and complementary health care, the Hippocrates Health Institute (HHI). Located just west of Palm Beach, Florida, HHI will utilize ResortSuite PMS and SPA modules to manage their room and spa operations.

Named the world's number one teaching institute by Spa Management Group (2000), HHI offers a natural and relaxed atmosphere where guests can heal their body, reconnect with their spirit, and rejuvenate their health. HHI required an unconventional robust solution to facilitate the management of their unique guest services and programs, while still providing rich operational capabilities.

Dr. Brian Clement, Director at HHI, stated, "We are delighted to be implementing ResortSuite to manage our operations. Working with one source for the software, implementation and support of our management system played a key role in our decision. We are confident that ResortSuite will provide the flexibility and functionality required to perform well for our management and staff."

"The business-driven, yet simplistic design of the ResortSuite solution is ideal for the needs of HHI, said Frank Pitsikalis, ResortSuite Founder & CEO. "They can continue to focus on creating a calm, nurturing environment for their guests and relinquish much of the effort required to streamline and enhance the reservation process and daily operations to ResortSuite and our team."

TORONTO, ON –About ResortSuite:
